FUNDING OPPORTUNITIES

- Limited forms of federal financial aid may be available to those enrolled in VIP who demonstrate financial need via the FAFSA. When submitting the FAFSA, the school code is for NYIT Old Westbury - **002782**. Federal financial aid for these programs are in the form of grants which do not have to be repaid - not loans. **The three forms of federal financial aid available to students enrolled in a Comprehensive Transition and Post-secondary Program (CTP) like VIP are Pell Grants, Federal Supplemental Educational Opportunity Grants, and Federal work-study.** Pell grants may be offered to those who demonstrate need and are limited to \$5,500 per student per year. We advise that you visit <https://fafsa.ed.gov/> to determine if your student is eligible.
- We advise you to contact the federal government hotline to ask about federal financial aid options at 1-800-4-FED-AID <https://studentaid.ed.gov/contact>. Please inform them that you are considering at Comprehensive Transition and Post-Secondary Program (CTP).
- If your student is accepted to VIP, we advise speaking to the NYIT Financial Aid office (516-686-7680 - nyit.edu/admissions/financial_aid) to discuss your options.
- State offices of disability services and/or vocational rehabilitation may provide funding support.
- Tuition payment plans are available through the NYIT Office of the Bursar.
- Additional resources and information on funding options can be found at www.thinkcollege.net.
- Continuing education loans (as opposed to student loans) are an option often used. Traditional student loans do not apply to VIP programming. Continuing education loans are available through private lenders.
- Some VIP students are funded either partially or fully through IEP transition plans, which are paid through local school districts or departments of education.
- On a limited basis from year-to-year, VIP may be able to award scholarships using grant funding or proceeds from annual fundraisers.
